## HEALTH ORDINANCES SHE HAD NOT OBSERVED CONSTANT IN AMERICAN CITIES

Report of Life Insurance Presidents Reveals Unsani- ed to lake Lynn tary Conditions in Many Southern Municipalities.

## THIRTY PER CENT HAVE NO SEWER CONNECTION

New York, June 16 - That at least thirty per cent of the population in arlous cities of this country equilibred. with good water supply systems with ty use will water that is subject to containing ion, was stated in a reporof a special investigation of the sont tary condition of thing-two American cities, animitted to the Association I take insurance Presidents today le-Hiram J. Meaninger, network of Hart ford, Conp. In clifes with sewer syswars the population living to begin inconnected with sewers was given at bisset forty per cent.

The givies investigated are with one two exerptions in the South and Especiance, Roanoke, Kaszville, Chat-SHOUTE, NASSYTHE, LOUISSINE, CINCOL Hoppoinstob Indiana potia. Springfield, St. Louis, Memphis, Little Book, Vielaburg, New Orleans, Mo-Montgoorers Dirmingham, Adamas Macon, the mouville, St. Augustibe Savannah, Charleston, Augusta, Co mahia, Charlotte, Danville, Rienmond Baltimore, New York and Hartford.

In soldition to water sumer and sewage costem, the principal points investigated covered disposal of garbage; Inspection of milk, meats and ristable provisions, board of bratch estimances for maintaining sadilary conditions, laboratory equipment and work of the department of bacteriol elimatic conditions, location of and universi character of sor counting country; character of eld gevernment, character of people, with pecini reference ps to whether or nor appropriate the importance of cameratellar proper health conditions and whether or not there is a powertal public sentiment that can nought to hear upon the city government in regard to such questions.

The evidence found practically evergydrere (particularly through the Southern states; showed that there has been a most wonderful improve turing the last lett or victors vests mics the report. Titles in the South or proportion to their account as ole ay apending as much memory in approvements affecting the general heaten of the city as in the North As far as observations indicated it

CURES J. J. RHEUMATISM The usual cause of Rheumatism is an excess of uric acid in the

blood which weakens and acidifies this vital fluid, and prevents the proper amount of nourishment being afforded the muscles, nerves and tendons. The pains and aches of Rheumatism may be temporarily relieved by the use of liniments, hot applications, and other external treatments, but the disease cannot be permanently benefited by such measures, and is bound to become chronic and dangerous if such things are depended upon alone. S.S.S. cures Rheumatism in the only way it is possible to cure the disease. It goes down into the blood, and removes the uric acid from the circulation so that the nerves, bones, muscles and joints are all lubricated and fed with nourishing matter instead of being constantly irritated and inflamed with the sharp, acrid impurity. When S.S.S. has cleansed and purified the blood the pains and aches cease, all inflammation disappears, stiffened muscles are made supple, and every symptom of Rheumatism passes away. Book on Rheumatism and medical advice free to all. The present shear the first of next week and the first of next week states and the possible to find many stores.

S.S.S. is for said at drug stores.
